Sugino CERAMIC LUBE

High-performance High-grade Lube perfect for *Sugino 75* **BB-SG75 SUPER CERAMIC**

Lube for cup & cone style loose ball bearings and retainer bearings.

Ultra-low friction

High performance ultra-low friction lube ensures smooth rotation and maximizes performance of BB-SG75 Super Ceramic.

Longevity

Lube is water resistant, suitable for high-load and high-speed, hard to decompose and emulsify.

Low probability of chemical attack

It is compatible with most rubbers and plastics, will not damage water sheath.

*Lube is toxic, please handle with care.

The lube can be used for steel ball bearings.

It is suitable for lubrication maintenance of BB-SG75 series, hubs, pedals and headsets.
