

New!

T47A-IDS24

T47A (T47 BB right) is the new addition to T47 BB series!

T47 series Lineup

T47A-IDS24 SUPER CERAMIC	New!	asymmetric	
T47A-IDS24 STEEL			
T47ex-IDS24 SUPER CERAMIC		external	
T47ex-IDS24 STEEL			
T47in-IDS24 SUPER CERAMIC		internal	
T47in-IDS24 STEEL			

T47A-IDS24 SUPER CERAMIC

●Black

T47A

Shell width 76.75~77.25mm

Used on

FACTOR, FELT, Cervélo

T47ex

Shell width 68mm

Used on

MULLER, DOLAN OFFICINA BATTAGLIN

T47in

Shell width 85.5~86.5mm

Used on

TREK, COLNAGO LOOK, CHAPTER2

T47A-IDS24 STEEL

●Silver

T47ex-IDS24 SUPER CERAMIC

●Black

T47ex-IDS24 STEEL

●Silver

T47in-IDS24 SUPER CERAMIC

●Dark gray

T47in-IDS24 STEEL

●Silver

Seal system

The waterproof & dustproof performance is further ensured by the sophisticated super-low friction seal system while realizing even smoother rotation, which is completely unique.

WATER PROOF DESIGN

Due to special seal system, the bearings don't require internal maintenance.

Made-in-Japan highest grade, high precision, ceramic bearing is used. The extremely low friction feature ensures super smooth rotation.

Gasket-ring

The gasket-rings provide secure fitting and keep water out of the frame. No thread locking agents (such as Lock Tight) are required, BB can easily be installed, removed and reused without fitting degradation, making the BB shell ideal maintenance hatch for internal cables.

Perfect fit

Prevent creaking, loosening & water ingress

Gasket-ring set S42

*Dark grey will be discontinued and switched to black after the current stock has run out.

Crank compatibility	
Φ24mm through axle	
●SUGINO : IDS24	
●Shimano : HOLLOWTECH II
